Executive Summary

Between 2009 and 2010, the State of Wisconsin experienced a decrease in the total number of juvenile arrests by 15%. The number of violent juvenile arrests decreased by 2%, while the number of property arrests decreased by 20%. Additionally, drug arrests decreased by 2%, society arrests by 15%, and other uncategorized offenses by 16%. Below are the major findings from each of the five individual crime categories in addition to a further breakdown into Homicide and Sexual Assault crimes:

All Arrests

- In 2010, Wisconsin law enforcement agencies made 74,852 juvenile arrests, at a rate of 5,618 arrests per 100,000 residents.
- Juveniles made up 18% for all arrests in Wisconsin in 2010, compared with adult arrests at 82%.
- An increase in arrests occurs as juveniles get older which does not taper off until age 24, this is true across all races and arrest categories.

Violent

- The most common violent crime committed by juvenile offenders was Aggravated Assault followed by Robbery.
- Juvenile arrest rates for violent crime have experienced a fairly steady decline since 2007.

Property

- Wisconsin law enforcement arrested 15,074 juveniles for property crime, down nearly 20% from 2009.
- White juveniles accounted for 68% (10,191) of the total property crime arrests in 2010, but Black juveniles were arrested at a higher rate (3,061.7 per 100,000 Wisconsin Residents per Race).

Drug

- Juveniles ages 15 to 17 accounted for 85% of the total juveniles arrested for drug offenses.
- Marijuana Possession accounted for the highest rate of drug offense arrests for all four race categories.

Society

- Wisconsin law enforcement arrested 31,365 juveniles for society crimes, down 14% from the previous year.
- Disorderly Conduct accounted for 47% of juvenile society crime arrests, while Liquor Law Violations, made up 21%.

Other

- Wisconsin law enforcement arrested 22,884 juveniles for crimes in the “other” category, down 11% from the previous year.
- White juveniles accounted for 70% of “other” offense arrests, although Black and American Indian/Alaskan Native juveniles were arrested at a higher rate.

Introduction

As mandated by the Wisconsin Legislature (Wis. Stat. § 16.964(1)(g)), the Wisconsin Office of Justice Assistance (OJA) is responsible for reporting information concerning the number and nature of criminal offenses known to have been committed in the state. This includes collecting crime and arrest data from 398 separate law enforcement agencies for the FBI's Uniform Crime Reporting Program (a nationwide cooperative statistical effort of more than 17,000 law enforcement agencies voluntarily reporting data on crime). The primary objective of UCR is to generate reliable information for use in law enforcement administration, operation, and management. Today, the American public looks to the Uniform Crime Reports for information on fluctuations in the level of crime, while criminologists, sociologists, legislators, municipal planners, the media, and other students of criminal justice use the statistics for varied research and planning purposes.

This report, prepared by the OJA Statistical Analysis Center (SAC), is a collection of arrest data reported by Wisconsin law enforcement agencies in 2010. It contains detailed information on arrest volume, rates, and trends for law enforcement agencies throughout the State of Wisconsin. In addition, it provides information on arrestee characteristics such as age, race, and sex for five separate crime categories: *Violent*, *Property*, *Drug*, *Society*, and *Other*. The report also includes a breakdown of arrests by adults and juveniles.

A. Background

The Uniform Crime Reporting (UCR) Program was first initiated in 1930 by the International Association of Chiefs of Police (IACP). Recognizing a need for national crime statistics, IACP formed the Committee on Uniform Crime Records. The committee evaluated various crimes on the basis of their seriousness, frequency of occurrence, pervasiveness in all geographic areas of the country, and likelihood of being reported to law enforcement. After studying state criminal codes and making an evaluation of the recordkeeping practices in use, the Committee identified seven main classifications known as Part I crimes. The seven offense classifications include the violent crimes of murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault, and the property crimes of burglary, larceny-theft, and motor vehicle theft. By congressional mandate, arson was added as the eighth Part I offense category in 1979. Agencies classify and score these offenses according to a hierarchy rule in which, in cases with more than one offense, only the most severe offense is counted.

During the early planning of the program, it was recognized that the differences among criminal codes precluded a mere aggregation of state statistics to arrive at a national total. Further, because of the variances in punishment for the same offenses in different state codes, no distinction between felony and misdemeanor crimes was possible. To avoid these problems and provide nationwide uniformity in crime reporting, standardized offense definitions were formulated by which law enforcement agencies were to submit data without regard for local statutes.

Introduction

The UCR program, as originally designed, remained virtually unchanged in terms of the amount and type of data collected and disseminated for nearly 60 years. Yet by the 1980s, it had become clear that the nature of law enforcement investigations and reporting had changed dramatically since the inception of the program. As a result, the FBI initiated a thorough evaluation of the existing system with the purpose of formulating a phased-in redesign effort to enable the program to meet the needs of law enforcement into the 21st century.

Based upon the recommendations of the evaluation, the FBI developed a new system known as the National Incident-Based Reporting System (NIBRS). Unlike the aggregate summary-based system, NIBRS is designed to collect all components of a crime, including characteristics of the offense and its associated victims, offenders, property, and arrestees. In 1998, the FBI released the final data elements and offense specifications of the new system. At that time, Wisconsin and other state programs began their efforts to implement this enhanced reporting system.

Today, the state has 319 law enforcement agencies participating in Summary-Based Reporting (commonly referred to as UCR) and 80 agencies participating in Incident-Based Reporting (IBR) including the Milwaukee Police Department. Nationally, 45 states participate, or plan to participate, in the IBR program. Of those states, 13 have 100% participation rate from their local law enforcement agencies. Due to the increased reporting requirements of the new program, OJA is implementing it in phases to allow law enforcement agencies the time and resources needed to acquire the necessary technological capabilities. As the State of Wisconsin moves forward with the implementation of this data collection program, a number of additional agencies will be submitting IBR data in 2010. For a list of current certified and testing IBR agencies, please visit the OJA website.

B. Format & Structure

Due to the changing landscape of statistical information dissemination and available resources, in 2007 the Statistical Analysis Center followed the lead of the FBI and their annual report, *Crime in the United States*, by discontinuing all printed versions of this publication to focus exclusively on internet technology for future distributions. This allows the agency to maximize its limited resources, while continuing to provide useful and valuable data to a broad audience.

With regard to structure, the report is separated into three main sections: juvenile arrest overview, a section for each crime category and demographics, a section on each Homicides arrests and Sexual Assault arrests, and appendices containing category broken down by crime types supplemented with a series of figures and tables provided to show statistical information such as volume, rates, and trends.

Introduction

C. Limitations

As presented by the FBI in their annual report, *Crime in the United States*, adequate assessment of criminality and law enforcement's response from jurisdiction to jurisdiction requires the consideration of many different variables, some of which are not readily measurable or applicable among all locales. Geographic and demographic factors specific to each jurisdiction must be considered and applied if one is going to make an accurate and complete assessment of crime in that jurisdiction. Understanding a jurisdiction's industrial/economic base; its dependence upon neighboring jurisdictions; its transportation system; and its economic dependence on nonresidents such as tourists all contribute to accurately gauging and interpreting the crime known to and reported by law enforcement. It is incumbent upon all data users to become as well educated as possible about how to understand and quantify the nature and extent of crime as reported by law enforcement agencies through the UCR program. Valid assessments are possible only with careful study and analysis of the various unique conditions affecting each local law enforcement jurisdiction.

Caution should be taken when comparing the results to other previous annual reports. First, shifting of a law enforcement agency from one population category to another based on annual re-estimation of the jurisdiction's population may have an affect on rates. Changes to law enforcement policies and procedures and their effect on crime rates must also be taken into consideration.

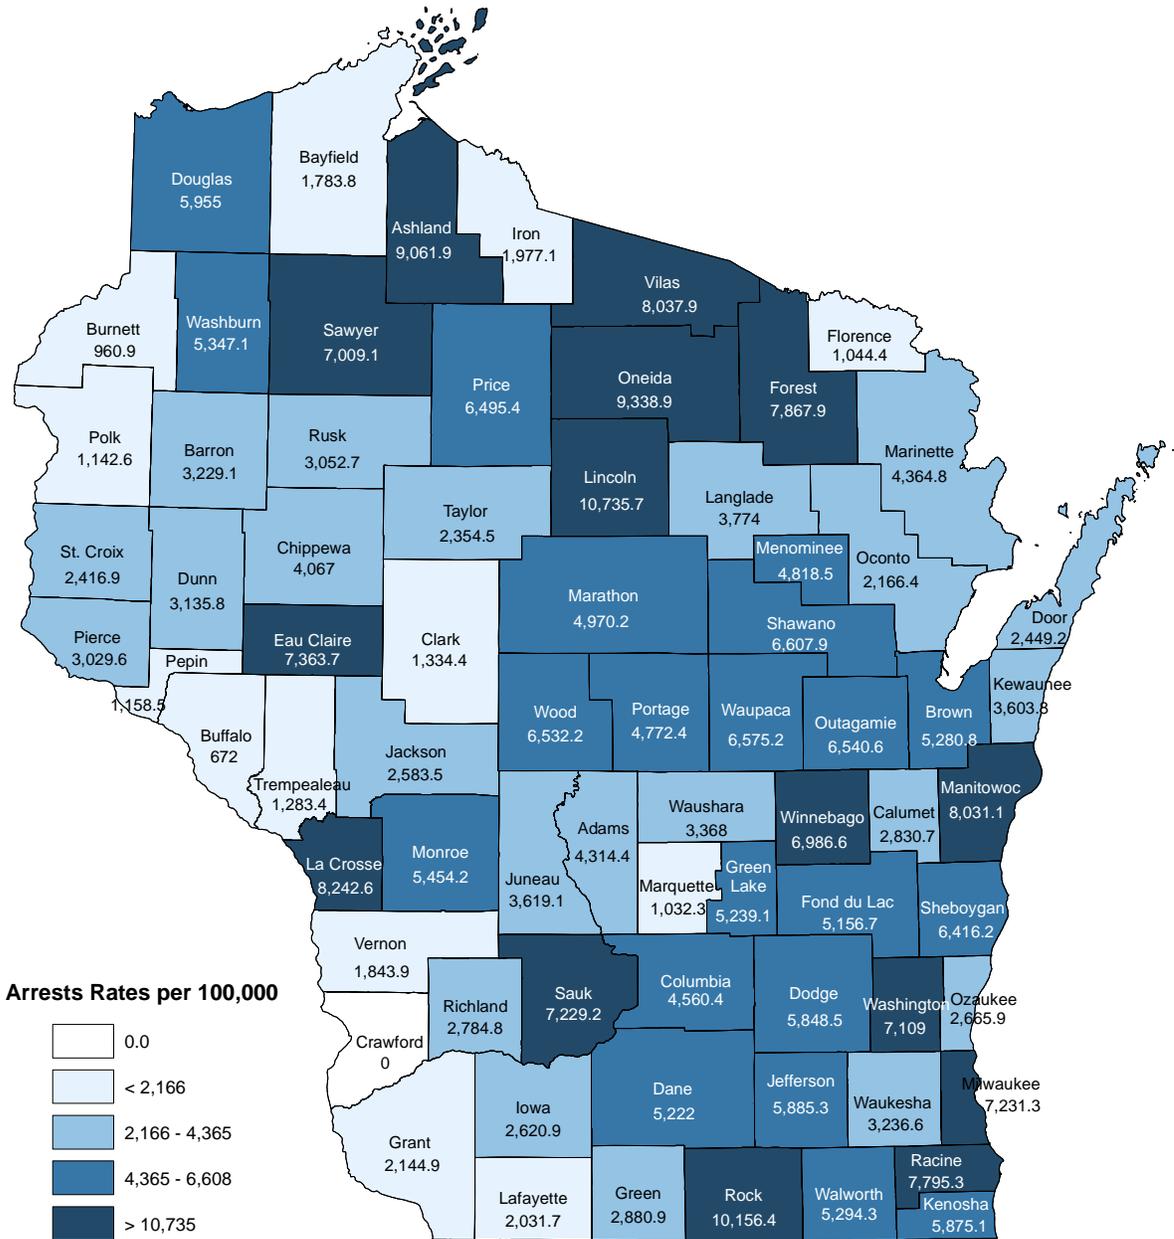

For this report, juvenile is defined as a person under the age of 18.

Additionally, arrest rates, rather than raw figures, are used in order to remove the effect of differing population bases among counties. Using rates per 100,000 county residents allows analysis to be conducted across an equalized population base and precludes the rates from being displayed in very small numbers.

Juvenile Arrests in Wisconsin

For this report, juvenile arrest is defined as individuals under the age of 18 who are taken into law enforcement custody, issued a citation or given a summons for committing an offense.

Arrest Rate Trends

A five-year trend shown in Figure 2 reveals that total juvenile arrests have steadily declined since 2006. In 2010, law enforcement agencies made 74,852 juvenile arrests, calculated to be 5,618 arrests per 100,000 Wisconsin residents. This figure represents a decrease of 15% from 88,114 in 2009.

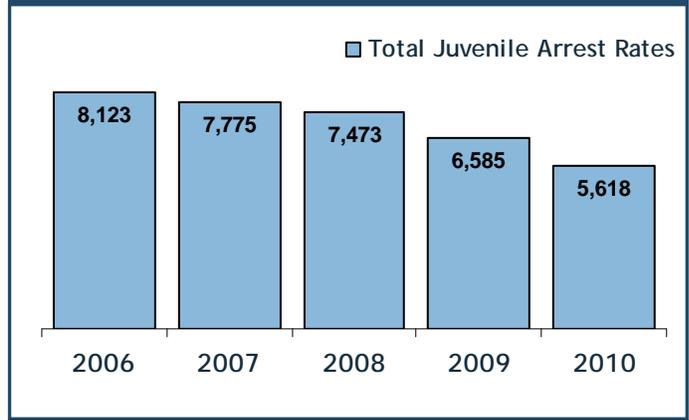

Juveniles vs. Adults

Adults far exceed juveniles in criminal arrests across all categories. As displayed in Figure 6, juveniles made up 18% for all arrests in Wisconsin in 2010, compared with adult arrests at 82%. This is a common trend and is partly due to the wider age range for adults, beginning at 18 years, where as juveniles are counted only to age 17. Additionally, as shown in the *Crime and Arrest* reports, there is an increase in arrests that begins as juveniles age and does not taper off until age 24 and then begins to decrease.

Arrest by Crime

Society crimes, which include, Curfew and Liquor violations, made up the majority of juvenile arrests for 2010, representing 42% of category arrests. Thirty-one percent of juveniles arrests were for Other category crimes, which entail Negligent Manslaughter and Family Offense classifications, followed by Property crimes at 20%. Juveniles were least often arrested for Violent crimes, such as Assault Robbery and Forcible Rape. Additional discussion of category by classification arrests reveals that as juveniles age there is an increase in arrests (beginning in Section 3).

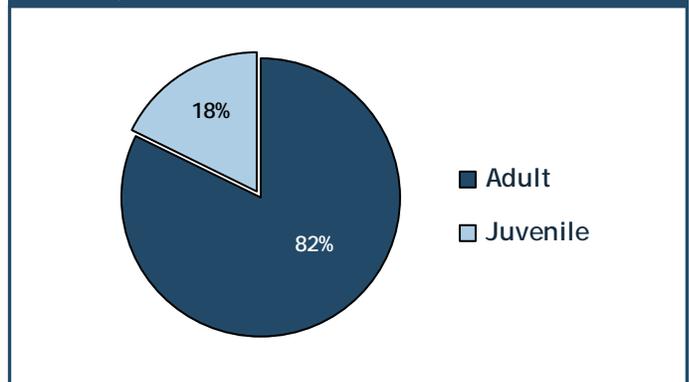

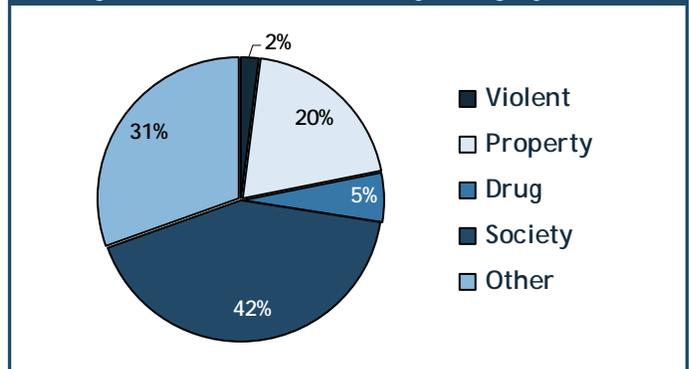

Figure 3: Juvenile Arrests by Category, 2010

Juvenile Arrests in Wisconsin

For this report, total juvenile arrests include all five offense categories: Violent, Property, Drug, Society, and Other.

Age, Sex, Race

As juveniles age, they are more likely to be arrested for criminal behavior. As shown in Figure 5, after age 12 there is a fairly steady decline in arrests. While juveniles 12 and under represent only 6% of this population, the 16- and 17-year-old age groups make up 26% and 28%, respectively. This trend is repeated throughout all offense categories and is enhanced in regards to Drug crimes (see Section 5).

A five-year trend of Juvenile Arrest Rates by Sex is shown in Figure 6. This graph reveals a steady decline in arrest rates for both sexes beginning in 2006. Female arrest rates in 2006 were 5,417 per 100,000 Wisconsin resident fell to 3,693 in 2010, a change of 32%. The decrease in male arrests has been just as dramatic, from 10,703 in 2006 to 7,460 in 2010, about 30%. This downward trend is consistent with crime reported to Wisconsin law enforcement agencies and national crime trends, which are reported to have decreased recently, as discussed in the *Crime and Arrest* reports.

Following the general five-year trend, decreases in arrest rates have also reached among all racial groups. Since 2006 arrest rates among the Asian racial category has decreased by nearly half, from 4,960 to 2,454 in 2010. Similarly noticeable is that arrest rates for the Black juvenile category, which represents the group with the highest arrest rates, has decreased by over 20% since 2009. Black juveniles are consistently arrested more than juveniles in all other racial categories in all offense categories as seen in Sections 3-9. Additionally, American Indian/Alaskan Native juveniles are also arrested at a higher rate than White and Asian/Pacific Islander racial groups. Both of the aforementioned arrest trends are consistent across all five of the offense categories, but not necessarily across all category classifications. See additional Sections for further analysis.

Juvenile Arrests: Violent

For this report, juvenile violent crimes include: Murder, Forcible Rape, Robbery, and Aggravated Assault.

Overview

There were 1,434 juvenile arrests for violent crimes in 2010. Nearly half (45%) of those arrested were 16 and 17-year-olds. The most common violent crimes committed by juvenile offenders was Aggravated Assault followed by Robbery. Both of these crimes were overwhelmingly committed by males. As in previous years, Black and American Indian offenders were most often arrested at rates of 544 and 98 per 100,000 Wisconsin residents, respectively.

Age, Sex, Race

Juvenile Violent Crime Arrests by Age are shown in Figure 8. Most arrested offenders were 17 years old and account for 29% of the arrested individuals for violent crime, while 16-year-old juveniles made up 27%. The age group of 12 and under made up the least arrested individuals (6%), 15-year-old offenders accounted for the second least arrested (18%) followed by 13-14 age group (20%).

A five-year trend reveals a fluctuating pattern in Juvenile Violent Arrest Rates by Sex (Figure 9). For 100,000 Wisconsin Residents per Sex, the arrested males in 2006 made up 214 of the violent juvenile offenders arrest, while females accounted for 46. An increase in 2007 was minimal for males while a decrease in female juvenile arrest rates occurred. In 2008 the arrest rates for both sexes dropped with a 5-year low occurred in 2009 for males. The violent arrest rates for juvenile offenders ended at 181 for males and 31 for females in 2010.

Juvenile Violent Arrest Rates by Race is shown in Figure 10 as a five-year trend. The trend mirrors the rise-and-fall revealed in Figure 9. For all racial categories in the five-year trend, the year with the fewest arrest rates was 2009 and continued to drop in the White and American Indian categories in 2010. The chart displays that per 100,000 Wisconsin Residents per Race 39 were Asian/Pacific Islander, 57 were White, 98 were American Indian, while 544 were Black.

Juvenile Arrests: Violent

Sex by Violent Offense Type

In Wisconsin, male juvenile offenders had the highest arrest rates among both sexes for all four violent crime categories in 2010, as with previous years. However, Violent Crime classification rates for both sexes mirror each other, though at a much lower rate for females. Aggravated Assault was the offense with the highest arrest rates per 100,000 Wisconsin Residents per Sex for each sex (77.7 males and 22.7 females). The class with the next highest arrest rates for both males and females was Robbery followed by Forcible Rape and Murder as shown below. Murders are defined for this report as a Homicide or non-negligent man slaughter and is discussed at further length in the Homicide section.

	Female	Male
Murder	0.2	2.1
Forcible Rape	3.1	22.5
Robbery	4.8	79.0
Aggravated Assault	22.7	77.7

** Per 100,000 Wisconsin Residents per Sex*

Race by Violent Offense Type

Figure 12 reveals that Black juvenile offenders had the highest arrest rates in Wisconsin out of all four racial categories, followed by American Indian/Alaskan Native juvenile offenders per 100,000 Wisconsin Residents per Race. Asian/Pacific Islanders had the lowest arrest rates, while White juvenile offenders had the second lowest arrest rates. Aggravated Assault was the violent offense classification with the highest arrest rates for all of the racial categories with exception for Black arrested juveniles. In this case, Robbery was the violent crime that had the highest number of arrests, over twice as many than any other violent crime. Both White and Black juveniles were arrested for Wisconsin Murders in 2010, although Black juveniles were arrested at a much higher rate (<1 versus 9.4, respectively). See the Appendix for further information.

Juvenile Arrests: Property

For this report, juvenile property crimes include: Burglary, Theft, Motor Vehicle Theft, Arson, Forgery, Fraud, Embezzlement, Stolen Property, and Vandalism.

Overview

In 2010, Wisconsin law enforcement arrested 15,074 juveniles for property crime, down nearly 20% from 2009. The decline in property crime is consistent across sex, age and race categories. Of these property crime arrests, Theft accounted for 64%; Vandalism, 18%; and Burglary, 9%. Fraud, Motor Vehicle Theft, Embezzlement, Forgery, Stolen Property, and Arson accounted for the remaining 9% of arrests.

Age, Sex, Race

Juvenile arrests for property crime were evenly distributed among four of the five age groupings, each accounting for about 20% or more of the arrests. As with all crime categories, the 12 and under age group represented the fewest arrests (8%), while 50% percent of juveniles arrested were between the ages of 16 and 17. The remainder (42%) of the arrests were aged between 13 and 15 years of age.

Overall, both male and female arrest rates have been on a general downward trend the past five years shown in Figure 14. The exception is the female arrest rates which increased in 2007 from 976 per 100,000 Wisconsin Residents per Sex to 1,062 and then has followed the decreasing pattern since. As with previous years, juvenile males were arrested at a noticeably higher rate than females, accounting for 66% of total property crime arrests in 2010.

The Juvenile Property Arrest By Race (Figure) comparison reveals notable differences among the four race categories. Black and American Indian/Alaskan Native arrest rates have been consistently higher than White and Asian/Pacific Islander arrest rates over the past five years. Arrest rates for all four race classifications are down from levels five years ago. The decline in arrest rates by racial categories in the five year trend, from 2006-2010, are as follows: White 33%, Black 11%, American Indian/Alaskan Native 10% and Asian/Pacific Islander 54%.

Juvenile Arrests: Property

Sex by Property Offense Type

In 2010, both males and females were arrested for Theft at a higher rate than any other property crime, with males accounting for 55% of the total Theft arrests, while Embezzlement, Forgery and Arson accounted for the least for both groups. Burglary and Vandalism arrest rates for males were markedly higher than the arrest rate for females, with males representing 94% of the Burglary arrests and 82% of the Vandalism arrests. The only classification in which females are arrested at a higher rate is Forgery at 60%.

Race by Property Offense Type

White juveniles accounted for 67% (10,191) of 15,074 property crime arrests this year, followed by Black juveniles with 28% (4,231), American Indian/Alaskan Native juveniles 5% (387), and Asian/Pacific Islander juveniles 2% (265). When comparing the arrest rates of property crime by race, sizeable differences were found between the four racial categories. Although White juveniles were arrested for more crimes, Black juvenile residents were arrested at a higher rate for almost all property crime offenses. Most notably, there were 1,945.9 arrests per 100,000 Black residents for Theft, although this category had the highest rate of arrests for all races. For further details, see Appendix.

For this report, juvenile drug crimes include: Sale-Opium/Narcotic, Sale-Marijuana, Sale-Synthetic Narcotic, Sale-Other, Possession-Opium/Narcotic, Possession-Marijuana, Possession-Synthetic Narcotic, and Possession-Other.

Overview

In 2010, Wisconsin law enforcement arrested 4,059 juveniles for drug offenses, down 2% from last year. Of the total drug arrests, 87% were for Possession and 13% were for Sale. The most common drug associated with both juvenile Drug Possession and Sale arrests was marijuana. Drug arrests were made at a rate of 307 per 100,000 juvenile residents.

Age, Sex, Race

As with all arrests, as the groups increased in age, the number of arrests also increased. The majority of juveniles arrested for drug offenses were 17 years old (41%), while juveniles over the age of 15 represent 85% of drug arrests. Juvenile arrests for 13-14 year-olds were 13% of the total and age 12 and under accounted for only 2%.

Consistent with previous years, juvenile males were arrested at a noticeably higher rate than females, accounting for 81% of total drug arrests in 2009. Male drug arrest rates have been on a general decline for the past five years, falling nearly 32%. During this same time period, female drug arrest rates have seen a rise-and-fall pattern.

Figure 20 shows a Juvenile Drug Arrest Rates by Race since 2006. Again, notable differences were found in the arrest rates between the four race categories. Black juvenile arrest rates have consistently been higher over the past five years and was the only category to see an increase in arrests from 2009. While rates for American Indian/Alaskan Native and White juveniles were fairly similar, Asian/Pacific Islander juveniles had the lowest arrest rates for drug offenses and have declined since over the past five years by 43%.

Juvenile Arrests: Drugs

Sex by Drug Offense Type

In 2010, males were arrested at a higher rate than females for all drug offenses. As in previous years, Marijuana Possession accounted for the greatest number of drug arrests, with 366.6 arrests occurring per 100,000 juvenile males and 77.4 arrests occurring per 100,000 juvenile females. Consistent with both males and females, Marijuana Sales accounted for the highest drug sale arrests, while both Opium/Cocaine Sales and Possession had the lowest.

White juveniles accounted for 71% (2,926) of the total drug arrests in 2010, followed by Black juveniles with 26% (1,047), American Indian/Alaskan Native juveniles 2% (86), and Asian/Pacific Islander juveniles 1% (36). When comparing the arrest rates of drug offenses by race, Figure displays that Black juveniles were arrested at a higher rate in nearly all categories. The exception is for Opium/Cocaine Sales in which American Indians/Alaskan Native juveniles were highest, however no possession arrests for Opium/Cocaine for that racial category were made.

Consistent with previous years, Marijuana Possession accounted for the highest rate of arrests for all four race categories. Black juveniles arrested at a noticeably higher rate for Marijuana Possession than any other race category, with 584.7 arrests per 100,000 Black residents. Marijuana Sales accounted for the majority of drug sale arrests. The sale or possession of synthetic narcotics generally had the lowest arrest rate among the drug offenses for all race categories, the exception is for American Indian/Alaskan Native group, which had an arrest rate nearly 3 times greater than White juveniles, per 100,000 Wisconsin Residents per Race.

Juvenile Arrests: Society

For this report, juvenile society crimes include: Weapon Law Violations, Prostitution, Sex Offenses, Gambling Violations, Driving While Intoxicated, Liquor Law Violations, Disorderly Conduct, Vagrancy, Curfew & Loitering, and Runaways.

Overview

In 2010, Wisconsin law enforcement arrested 31,365 juveniles for society crimes, down 14% from the previous year. Of these society crime arrests, Disorderly Conduct accounted for 47%; Liquor Law Violations, 21%; Curfew Violations, 15%; Runaway, 9%. Weapons Violations, Prostitution, Sex Offenses, Gambling, OWI and Vagrancy accounted for the remaining 8%. The rate of arrests for these offenses was 2,354 per 100,000 juvenile residents.

Age, Sex, Race

Juvenile arrests for society crime were generally distributed evenly among four of the five age groupings, each accounting for 20% or more of the arrests. Fifty-two percent of juveniles arrested were between the ages of 16 and 17, while 42% were between the ages of 13 and 15, these findings are comparable to the statistics analyzed in 2009.

Consistent with previous years, juvenile males were arrested at a noticeably higher rate than females, accounting for 65% of total society arrests in 2010. Both male and female society arrest rates have been on a steady decline for the past five years.

Comparing by race, notable differences were found in the juvenile arrest rates between the four race classifications. Black and American Indian/Alaskan Native arrest rates have consistently been higher than White and Asian/Pacific Islander over the past five years. Arrests rates in all race category have experienced a decline over the past five years: White juveniles by 35%, Black juveniles by 30%, American Indian/Alaskan Native juveniles by 32%, and Asian/Pacific Islander juveniles by 47%.

As in previous years, Disorderly Conduct accounted for the greatest number of juvenile society crime arrests with 1,483.5 arrests occurring per 100,000 males and 737.8 per 100,000 females. Among both juvenile females, Gambling Violations had the lowest arrest rate, while for males Vagrancy was the society crime with the lowest rates.

When comparing the arrest rates of society crime by race, variations were found between the different crime classifications and the four race categories. Driving While Intoxicated was highest in the American Indian/Alaskan Native group, while Disorderly Conduct arrests occurred at a rate of 3,579.8 per 100,000 Residents per Race for Black juveniles (White juveniles were the second highest group at 848.6). Juvenile Arrests: Other

For this report, juvenile “other” crimes include: Negligent Manslaughter, Other Assaults, Family Offenses, and All Other (except Traffic).

Overview

In 2010, Wisconsin law enforcement arrested 22,884 juveniles for crimes in the “other” category, down 11% from the previous year. Of these “other” crime arrests, All Other accounted for 85%; Other Assault, 14%. Family Offenses and Negligent Manslaughter accounted for the remaining 1%. The rate of arrests for these offenses 1,717.5 per 100,000 juvenile residents.

Age, Sex, Race

Juvenile arrests for “other” crime were somewhat evenly distributed among four of the five age groupings as shown in Figure 28. Fifty-seven percent of juveniles arrested were between the ages of 16 and 17, while 38% were between the ages of 13 and 15. Juveniles 12 and under accounted for the remaining 5%.

The chart in Figure 29 reveals that 2010 juvenile arrest rates are consistent with previous years, males were arrested at a noticeably higher rate than females, accounting for 68% of total “other” arrests in 2010. Juvenile arrest rates for both males and females have steadily declined since 2006, with a decrease of 31% and 37%, respectively.

Juvenile “Other” Arrest Rates by Race is shown in Figure 30. Although there was a drop in arrest rates across the all groups, notable differences were found between the four race classifications. Black and American Indian/Alaskan Native arrest rates have consistently been higher than White and Asian/Pacific Islander arrest rates over the past five years. The decrease in rates since 2006 is as follows: White 36%, Black 22%, American Indian/Alaskan Native 37%, and Asian/Pacific Islander 52%.

Juvenile Arrests: Other

Sex by Other Offense Type

In 2009, juvenile males were arrested at a greater rate than females for all crimes classified as “other”. As in previous years, Negligent Manslaughter accounted for the least number of these juvenile arrests, with one arrest per 100,000 males and less than one arrest per 100,000 females.

Juvenile males and females were both arrested for All Other crime at a higher rate than any other crime in this category, with males being arrested at almost two times the rate of females. The arrest rate for Other Assaults and Family Offenses followed the same pattern, with males being arrested at a notably higher rate than females.

Negligent Manslaughter	0.2	0.0

Family Offenses	7.7	30.7

Race by Other Offense Type

White juvenile arrests accounted for 70% (15,540) of the total arrests classified as “other” in 2010, followed by Black juvenile arrests with 27% (6,208), American Indian/Alaskan Native juvenile arrests 3% (714), and Asian/Pacific Islander juvenile arrests 2% (422).

In Figure 32, juvenile “Other” Arrest Rates by Race and Offense are shown. The comparison reveals Black and American Indian/Alaskan Native juveniles were nearly always arrested at a higher rate for all “other” crime offenses. Most notably, there were 3,517.6 juvenile arrests per 100,000 Black residents for All Other offenses and 2,147.4 arrests per 100,000 American Indian/Alaskan Native residents. Arrest rates in the Asian/Pacific Islander category had the lowest arrest rates among the four race categories.

Consistent with previous years, All Other juvenile arrests accounted for the highest rate of arrests among the four race categories, while Negligent Manslaughter arrests were the lowest.
